

System Administrator/Cartographer - GIS

Caribou County currently has an opportunity for an experienced, well versed individual to fill the role of System Administrator who also has knowledge of GIS applications. In this position, the successful applicant will be responsible to maintain our system infrastructure, including firewalls, VPN, rebuilding existing servers if needed and in-depth knowledge and experience with VMware and system security concerns and vulnerabilities is required. Assist in integrating new applications and technologies in the current system.

Geographic Information Systems responsibilities include attention to detail, good writing and oral communication skills, knowledge of GIS programming and editing geodatabases. The successful applicant will have the ability to work with the different departments within the county using GIS applications.

We are looking for someone who is a team player who can communicate technical concerns and solutions to many different people with varying degrees of technical knowledge as well as work with individuals in all departments to help solve their technical or GIS issues.

Salary is depending on experience.

Caribou County also offers full benefits include Medical, Dental and Vision Insurance with PERSI retirement.

Application can be picked up in the Caribou County Clerk's office room 202 Caribou County Courthouse or on line at www.co.caribou.id.us return application to the Clerk's Office
